JAMES B. BLACK IS NEW PRESIDENT P. G. & E.

The new president of the Pacific Gas and Electric Company is James B. Black, widely known among California utility men and regarded as an able and worthy successor to the late A F. Hockenbeamer, who died November 11. Black was chosen for the position at a meeting of the company's directors on November 20.

Formerly vice-president and general manager of the Great Western Power Company of California, which was absorbed by the P. G. and E. in 1930, Black has been a vice-president of the North American Company for several years, with offices in New York. The wide financial experience gained here, and his previous operating experience coupled with his intimate knowledge of northern and central California, were among the factors leading to his selection.

Born in Sycamore, Illinois, in 1890, Black moved with his parents to California when he was 10 years of age. He was graduated from Lick School in San Francisco in 1908 and from the University of California in 1912 as a mechanical engineer. He went to work at once for the Great Western Power Company as a service inspector and rose from one position to another, until he became Vice-President and General Manager in 1922. Since the merger of 1930, he has been a director of the Pacific Gas and Electric Comany.

Speaking for the directors, C. O. G. Miller said:

"Mr. Black, who at 45 is in the prime of life, has been chosen president because of his wide knowledge of public utility affairs He has had experience in matters of finance as well as operation. He is forward looking and public spirited and as a Californian has a clear understanding of the problems facing the gas and electric utilities in this state.

"Mr. Black will assume his duties at once. No other changes are contemplated among the management officers of the company."

Filing intention to wed this week were Marvel L. Richmond of Monterey and Ethel L. Johnson of Carmel; Raymond Edward Howard, Monterey Presidio, and Fern Rosalia Wessick, Monterey.

He was taken to the Peninsula Community hospital and given treatment but his advanced age was agaist hm.

Hang was born in China but had lived in the United States for sixty years, twenty-five years of which time he had spent on the peninsula.

So Help Us, It's True!

THE GIRL WITH A HUNDRED VOICES

Such is the title earned by Martha Wentworth, talented radio actress, pictured below. Miss Wentworth has "doubled" successfully for such stars as Mae West, Mary Pickford, Zasu Pitts, Allison Skipworth and dozens of other illustrious personages.

Since making her debut before the "mike," she has played no less than 150 different roles of a major nature. She is heard Thursday nights at 9 on Mobil Magazine program, over the Pacific Coast chain of Columbia broadcasting stations.

VALERIE HOBSON, *Universal Picture star, contemplates the soap bubble.*

SOAP BUBBLE FILM MEASURES 100 MOLECULES

Imagine trying to gauge the thinness of a soap bubble film. Smithsonian Institute says it measures 100 molecules.

But an oil film sufficient to lubricate the cylinders of new type cars measures but 10 molecules, or one-tenth the depth of the soap bubble covering.

Such is the "So Help Us, It's True" advanced by G. F. Olsen, General Petroleum technologist, who says that a quart of motor oil makes a film sufficient to cover a smooth surface of the same area as the coast highway from Canada to Mexico.

BONNEVILLE LOCKS WOULD HOLD BIG BUILDING

A good sized hotel or giant office building could be built in the lock chambers of the Bonneville dam pictured at the right. It's a short drive from Portland, Ore., via Columbia River highway. This is a major project of the Pacific Northwest for 1935.

Yes, so help us, the huge head shown below is very appropriately named Trojan Rock. The camerman found it between Mojave and Randsburg, beyond Red Rock Canyon, and near the petrified forest of California, while making a trip on the Owens Valley road.

A MILLION MILES AND STILL GOING STRONG

This is the record of the 1909 Flanders car pictured above. This car has been several times across the continent and to many points along the Pacific Coast.

Its owner, F. Mayo Lansing, sitting behind the wheel, says the motor has never been rebored and still operates perfectly. Recently he drove with the Flanders from New York to the Coast to open a General Mobilgas station in Beverly Hills district of California, where so many picture stars reside.

Trip from coast to coast, says Lansing, was made in 133 hours, or less than six days of driving time, on a reported average of 25 miles to the gallon.

"The Flanders may be old in years," declares the owner, "but it's young in spirit. I plan a lot of future trips with it throughout the Pacific Coast.

"When it was built, it was among the most popular cars. It cost $1,720, with $125 extra for the top, and $75 for the windshield. Practically ever since I bought it, the car has been lubricated with Mobiloil, which I now dispense at my station."

P. G. E. NOW LARGEST TAXPAYER IN COUNTY

The Pacific Gas and Electric Company today paid to Monterey and the cities of Monterey County a total of $86,458.92 in taxes, for the first installment on its property located in this county.

This is the Company's first payment under the new Riley-Stewart tax law says A. Balchin, district superintendent. By this payment the Pacific Gas and Electric becomes the county's largest taxpayer.

The Riley-Stewart law repeals the Gross Receipts tax law, which levied a tax on all Public Service property payable to the State for State purposes and withdrew that property from taxation for county, city and other local purposes.

All of this property is now back on the local tax rolls and is taxed on the same basis and in the same manner as farm, home and business property, and contributes its taxes directly to counties, cities, school and other districts. With this new source of revenue to help support local institutions, schools and other activities, the tax rates and tax burdens on private property will be greatly relieved. The Pacific Gas and Electric Company is now the largest taxpayer in twenty-eight of the counties covered by its system.

The amount paid today is distributed between the County and the cities as follows:

Monterey County -	$62,555.39
Carmel - -	1,564.77
King City - -	864.15
Monterey - -	5,974.40
Pacific Grove - -	3,042,61
Salinas - -	12,308.83
Soledad - -	148.77
	$ 86,458.92

Public Invited to Discuss Tennis Court With Council

Whether you are for or against the tennis courts on the beach, you are asked by the city council to be at their next meeting, December 18, to give your views on the subject. At last night's meeting the city fathers decided to delay further action on the courts until they have heard from the public.

A tree near the entrance of the new theatre was ordered trimmed so that an adult might safely pass under it, while a dead tree on the property adjoining the Morris McK. Wild property was ordered cut down with due procedure of law.

Councilman Catlin reported plans under way to remove every dead tree within the city limits. The owners will first be notified and if they do not have their trees removed within a prescribed length of time, the city will condemn said trees as a nuisance and have them removed at the owner's expense.

F. A. Howard asked for permission to beautify the trees in front of his property at Camino Real and Eighth. Permission to trim was given.

Mrs. Nelly Montngue presented the idea of a federal artr project, stating that much beautifying could be done here at a cost of only a few cents for materials. To look into the proposition the following committee was appointed by Mayor Thoburn; Mrs. Ten Winkel, Mrs. Montague, Helen Ware and Councilmen Catlin and Brownell.

The tennis courts, it was reported, would cost in the neighborhood of $3100, and spectators present brought up the question of maintenance, and the advisability of building them on the beach on account of sand and wind. Some felt that the courts would also be an opening wedge for further beach concessions.

Attorney Campbell said he had recently been assured that the money to finish the Scenic drive project would be available soon.

A check for $225 was received from the P. G & E., with their bid for a franchise, which was granted. The payment of 2 per cent on their gross earnings in this city will begin immediately. The $225 will take care of the legal costs of the action.

A special fund was created in the city treasury in order to accept gasoline tax from the state, which must be used in highway upkeep.

MUSICAL ARTS CLUB HAS DANCE PROGRAM

With dances from Spain, Russia, Japan' Persia, Holland and other points demonstrated by teachers and their pupils, the Musical Arts club gave a delightful program at the Country club Tuesday evening.

As Edward G. Hopkins gave a talk on the history of the danc, he called on the following performers: June Delight, Althea Worrall and Peggy Fitzgerald, teachers, and Rose Funchess, Madelaine McDonough, Ann Martin, Winifred Van Ess, Mavis Claunch, Frances Costanos and Patsy Shephard, students of the dance. Accompanying them were Miss Jean Funchess and Mrs. Bess Ward

June Delight was charming in her Dance Parisienne, and Russian dance, while Althea Worrall delighted the audience with her Dutch dance in pantomime and the slave dance. Miss Fitzgerald gracefully interpreted the Japanese dance.

The young girls showed excellent training and give promise as great artists of the future. The Spanish dance by Rose Funchess and Madelaine McDonough was partieularly pleasing, while Miss Winifred Van Ess was so graceful in her movements as to remind one of a silken banner in a soft breeze.

In speaking of the dance, Mr. Hopkins brought to his hearers the fact that the modern dance began in 1900, with Isadora Duncan as exponent. The conventional steps and figures, he said, are like words in speech. Mr. Hopkins also compared the dance with piano music. "The fingers dance over the keys, in piano playing," he said.

The dance program is annual affair, looked forward to with pleasure each year.

A baby daughter was born Tuesday of last week to Mr. and Mrs. Frank B. Sappok of Pebble Beach at the Community hospital.

A marriage of peninsula-wide interest this week was that of Miss Lillian (Billy) McConnell, daughter of Mr. and Mrs. W. H. McConnell of Monterey, and Mr. Joseph Brucia, son of Mr. and Mrs. Antonio Brucia of Monterey. The young couple drove to Reno where the ceremony was performed and returned immediately to Monterey where they will make their home. The bride is one of the best known dancers on the peninsula and has appeared in many programs here. The groom has been associated with the Western Union in Monterey for the past ten years.
